

MUCKTHAR AHAMED R

Data Scientist

Cuddalore • ahamed.muckthar.r@gmail.com • [Linkedin](#) • [Github](#) • +91 91503 64212

PROFESSIONAL SUMMARY

Computer Science undergraduate proficient in Python and SQL (MySQL/PostgreSQL), with hands-on experience in developing and optimizing database-driven applications. Experienced in data cleaning, exploratory data analysis, and relational database design. Proven ability to transform complex datasets into actionable insights to drive business decisions.

HARD SKILLS

- Machine Learning [Pytorch, Tensorflow]
- Advanced Python Programming
- Exploratory Data Analysis
- Data Visualization[Matplotlib, Seaborn, Plotly]
- Version Control[Git, GitHub]
- SQL - [MySQL, PostgreSQL]
- Data Manipulation[Pandas, Numpy]

SOFT SKILLS

- Detail Oriented & Logical Thinking
- Stress Tolerance
- Communication & Presentation Skill
- Proactiveness

EXPERIENCE

Backend Developer [Intern]

Nov 2025 - Jan 2026

SmartGoNext Software Solutions

- Implemented data handling and managed the database management system, enhancing efficiency and accuracy.
- Conducted basic data analysis to inform decision-making processes, leading to improved outcomes.
- Optimized database queries, reducing load times by 25% across applications.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Sep 2023 - Present

Sri Venkateshwaraa College of Engineering and Technology

Expected Graduation : 2027 | CGPA : 7.6

Higher Secondary Education (Class XII)

Mar 2022 - Sep 2023

Aristo Public School

Passed out Year: 2023 | Percentage : 64%

PROJECTS

Data Science Analytics Portfolio | Python, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn | [Code](#)

- Developed a collection of data analysis and machine learning projects, including GPay Transaction Analysis, Uber Ride Analysis, IPL Match Analysis, and IPL Match Prediction.
- Performed data cleaning, exploratory data analysis (EDA), data visualization, and predictive modeling on real-world datasets and Generated actionable Insights through statistical analysis & visualizations

Student Dropout Prediction and Counseling System | Python, Flask/FastAPI, Scikit-learn, Pandas | [Code](#)

- Built a machine learning system to predict student dropout risk using academic, attendance, and fee-related data.
- Implemented data preprocessing, predictive modeling, and interactive dashboards for risk analysis and counseling support.Enabled early identification of at-risk students to support timely academic interventions.

LeadNova – Sales Lead Prediction System | Python, Pandas, Scikit-learn, Flask/FastAPI, SQL | [Code](#) | [Live](#)

- Developed a machine learning-based system to predict the likelihood of converting potential leads into customers.
- Performed data preprocessing, feature engineering, and predictive modeling to analyze customer behavior and lead quality and Built an interactive dashboard to visualize lead insights and support data-driven sales decision-making.
